

## ET-2000 intelligent bio ethanol fireplace

<b>Model</b>	ET-2000	<b>Brand</b>	
<b>Suitable places</b>	Lobby,halls,club,villa,outdoor,patio Etc.		
<b>Deminsion</b>	L2000mm*W250mm*H235mm	<b>Thickness</b>	3-8mm ( Standard 3mm)
<b>Reserved hole size</b>	L1970*W230(Internal hollow)	<b>N.W.</b>	65kg
<b>Materials</b>	SUS/SPCC/AL		
<b>Ignition type</b>	Button, remote control,or WIFI(optional)		
<b>igniter</b>	High energy Igniter(no deflagration,no shrill and no magnetic interference)		
<b>Fuel</b>	75%-95% bio ethanol fireplace		
<b>Internal fuel capaticy</b>	30L	<b>External fuel capaticy</b>	Customised
<b>Fuel Consumption</b>	3.7-4.2L/H	<b>Calorific value</b>	58000BTU
<b>Application of space area</b>	>80m2	<b>Application spatial valume</b>	>135m3
<b>Flame Height</b>	150-350mm	<b>Venting system</b>	Recommended
<b>Supply power/Capacity</b>	110-240/50HZ,Ignition power :60W , continuous working:5W , fuel filling:15W		
<b>Material</b>	1.The buttom is proceesed by SPOC black powder injection 2.The panel is made by SUS304/3. 3. burning tank is made by SUS304		
<b>Configuration</b>	1.Intelligent insert software 2.high-performance and low power consumption IC 3.Double protection and safe low voltage system 4.Automatic fuel filling system 5.Safe fuel filling system 6.Working protection security system 7.Double anti-overflow protection		
<b>Options</b>	1.External Extended Key Switch 2.WIFI Internet Access system 3.Mobile Terminal control system 4. Patented ventilation system 4.The indoor carbon dioxide control module 5.Stainless steel combustion frame		
<b>Accessories:</b>	Warranty card,caution sign,AC adapter, Remote control,Fuel filling tube,Filter,installing handle,Clothing		
<b>Cerfications</b>	CE、CMA、ROHS		
<b>Leading time</b>	10-15working days(bulk excepted)		
<b>Package deminsion</b>	L2080mm*330mm*310mm		
<b>G.W.</b>	77kg		
<b>Warranty</b>	One year after factory date (refer to warranty card)
