

ET-1400 intelligent bio ethanol fireplace

Model	ET-1400	Brand	
Suitable places	Lobby,halls,club,villa,outdoor,patio Etc.		
Deminsion	L1400*W250*H235	Thickness	3-8mm (standard3mm)
Reserved hole size	L1370*W230(Internal hollow)	N.W.	42kg
Materials	SUS/SPCC/AL		
Ignition type	Button, remote control,or WIFI(optional)		
igniter	High energy Igniter(no deflagration,no shrill and no magnetic interference)		
Fuel	75%-95% bio ethanol fireplace		
Internal fuel capacity	20L	External fuel capacity	Customised
Fuel Consumption	1.6-2.3L/H	Calorific value	11KW/H37000BTU
Application of space area	>64m ²	Application spatial valume	>160m ³
Flame Height	150-350mm	Venting system	Recommended
Supply power/Capacity	110-240/50HZ,Ignition power :60W , continuous working:5W , fuel filling:15W		
Material	1.The buttom is proceesed by SPOC black powder injection 2.The panel is made by SUS304/3. 3. burning tank is made by SUS304		
Configuration	1.Intelligent insert software 2.high-performance and low power consumption IC 3.Double protection and safe low voltage system 4.Automatic fuel filling system 5.Safe fuel filling system 6.Working protection security system 7.Double anti-overflow protection		
Options	1.External Extended Key Switch 2.WIFI Internet Access system 3.Mobile Terminal control system 4. Patented ventilation system 4.The indoor carbon dioxide control module 5.Stainless steel combustion frame		
Accessories:	Warranty card,caution sign,AC adapter, Remote control,Fuel filling tube,Filter,installing handle,Clothing		
Cerfications	CE、CMA、ROHS		
Leading time	10-15working days(bulk excepted)		
Package deminsion	L1480*330*290mm		
G.W.	54kg		
Warranty	One year after factory date (refer to warranty card)
